

F-ESSENTIALS

The F-Essentials range are ready-to-wear and packed with technologies. They meet the main needs of the foot: cushioning, hygiene, shock absorption and comfort.

► **F-Essentials range p.48**

3D

Insoles and 3D sandals that are pre-shaped and provide the ultimate in comfort thanks to their 3D design. Their form supports the foot and aligns the body, giving stability and optimum comfort to the foot.

3Feet®

Feet differ in three main ways: their shape, movement and pressure distribution.

Despite these differences, they can generally be grouped into three categories, each with their own distinct needs: High arch feet - Mid arch feet - Low arch feet.

The biomechanical construction of the 3Feet® range is adapted to three different arches. With insoles, socks and sandals for each type!

FLASHFIT™

Flashfit™ technology allows 75% customization of your insoles in only a few minutes.

The bootfitter heats a pre-shaped insole and fits it to your foot in less than 5 minutes. Only part of the insole can be fully customized to your foot, the other pre-shaped part remains unchanged when heated.

With Flashfit™ insoles, you have more power, control and comfort.

► **City+ range p.56 - Multi range p.53 - Specific Sport range p.60**

Custom

The Custom technology offers complete customisation of your insoles. With a flat insole, the bootfitter moulds the insoles and then heats them. When it is placed on your footprint, the Custom insoles hugs the shape of your feet for the highest level of comfort and support.

INSOLES

FOR EACH FOOT THERE IS A SOLUTION

Feet tend to differ in 3 distinct ways: the shape, the movement and the pressure distribution.

Even with such differences, you can generally group feet into 3 categories, each with their own distinct needs: **High arch feet - Mid arch feet - Low arch feet.**

The 3Feet® biomechanical construction is adapted to the 3 different arch types.

For each foot, there are insoles, socks and now sandals!
